Dental Excellence

# DESIGN EDITION

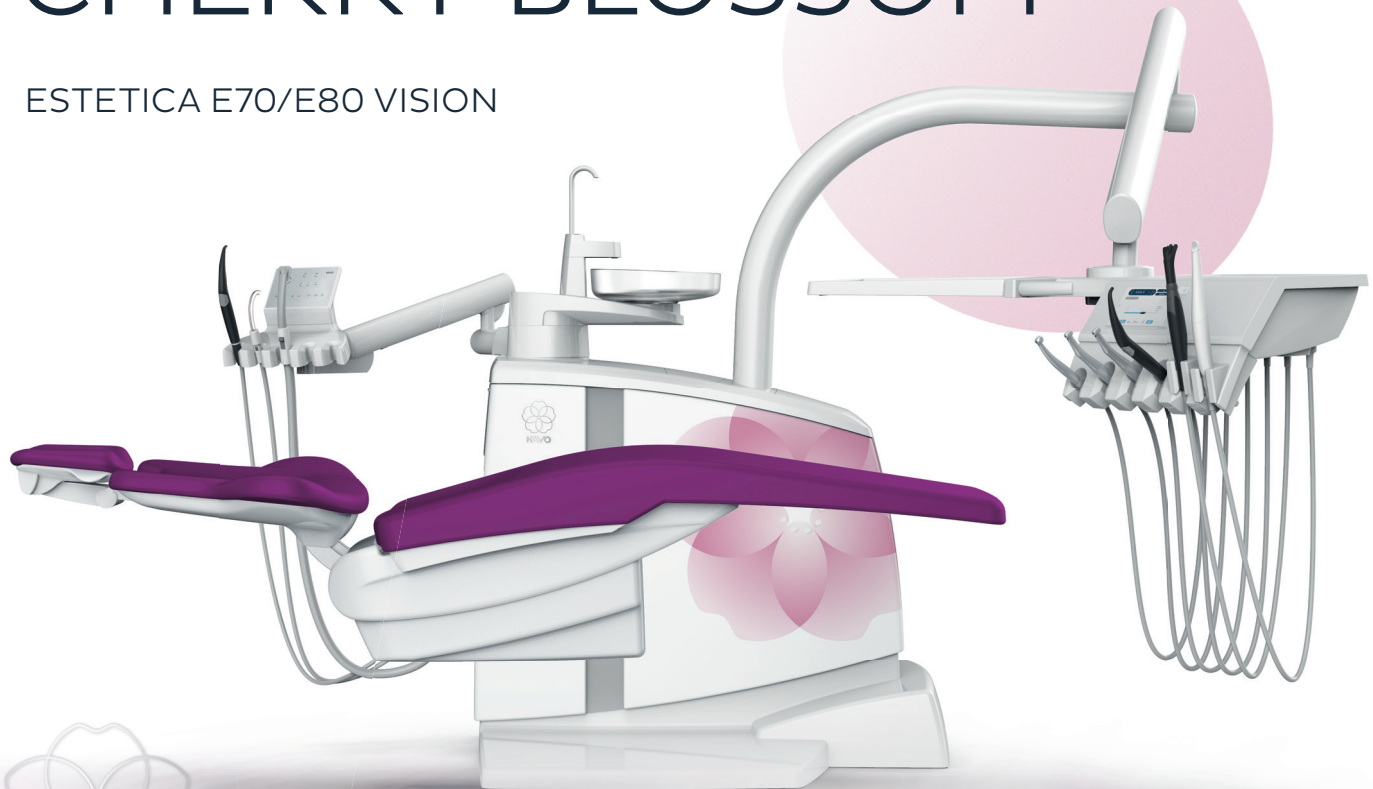

Japan: the island nation in the Pacific, with densely populated metropolises, pulsating pop culture, deeply rooted traditions, mountainous national parks and subtropical beaches... full of contrasts and diversity!

Thus this country served as the inspiration for developing a design series just as colorful and diverse.

Whether feminine, classic or urban, the designs combine harmoniously with a variety of furnishing styles and give your dental office even more personality.

# CHERRY BLOSSOM

ESTETICA E70/E80 VISION

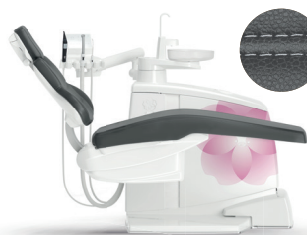

The Cherry Blossom is the embodiment of beauty and is considered the emblem of a new beginning. The motif and the bountifulness of colors are captivating through gentle strength and elegant playfulness. Depending on the combination of colors and materials, one aspect or another is emphasized. Enchanting, classic or strong in character.

# COZY GLAMOUR

Warm tones and golden details make this look glamorous and yet so comfortable. Like the petals of the cherry blossom, the soft, round shapes make this furniture captivating.

# FEMININE LIGHTNESS

Bright shades, delicate shapes, precious materials such as velvet and marble distinguish this style and coalesce with the cherry blossom motif to form a harmonious, finely nuanced overall picture.

# BAMBOO

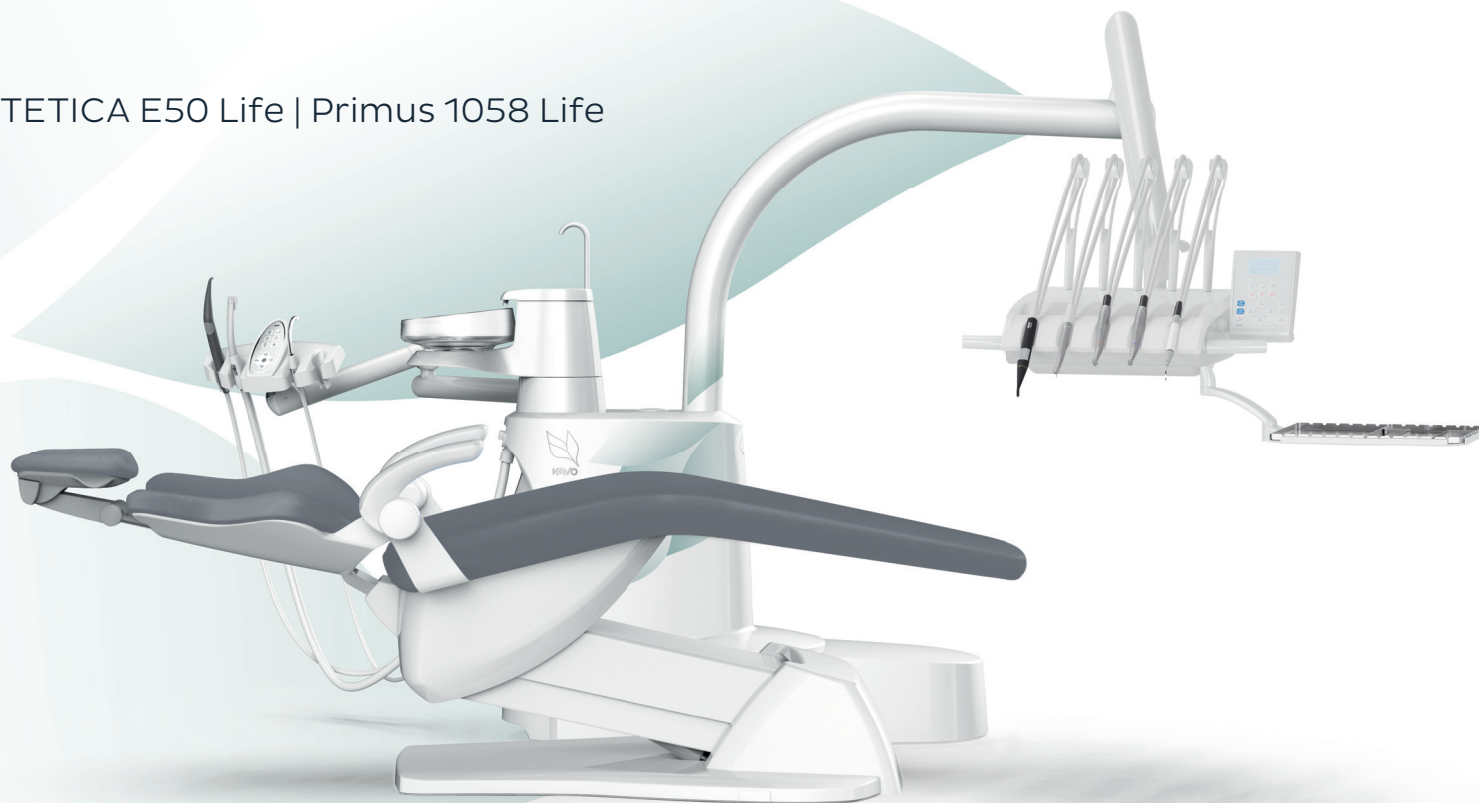

ESTETICA E70/E80 VISION

Subtle elegance characterizes the Bamboo design. The color green is said to have a balancing, soothing and yet refreshing quality. The gently flowing leaf shapes are reminiscent of the awakening of Nature in spring. So it is not surprising that bamboo is also a symbol of purity in Japan. Delicate, and at the same time so strong and striking.

# FUJISAN

ESTETICA E70/E80 VISION

Powerful and shining, the highest mountain in Japan rises above the clouds in its perfectly symmetrical shape. Dipped in sunny yellow, the motif feels light-hearted and cheerful. Yellow stands for happiness and well-being; combined with gray tones and concrete, the radiance is even stronger.

# SCANDI RETRO

Light woods, textiles and delicate shapes  
in rather muted colors. A style in which  
everything works together in elegant,  
relaxed reserve and so is very inviting.

# GO FOR IT

Even the best treatment unit is nothing without the right instruments. And when everything together forms the perfect unit, not only technically but also visually, it is even more beautiful.

For the consummate total picture, the MASTERmatic LUX M25 L is integrated into the design family and is laser-decorated with the symbols of the three designs.\*

### Materials / shapes

---

Velvet, metal, colored glass, but also rough materials such as wood and concrete can be combined. The rounded shapes and rather dark tones are important for the overall picture: they lend this style its feminine, profound impression.

---

Warm tones and light shades are the basis. The interplay of velvet, glass, fine metal details, smooth surfaces and marble creates a gentle elegance. The design language is graceful and light.

## **Materials / shapes**

---

Natural materials are essential. Bast, rattan, bamboo and wood but also stone can be combined effortlessly. Lots of white and light gray shades generate lightness. Finely worked, organic shapes underline the characteristics of nature.

---

Clarity is in the foreground, limitation to basic geometric shapes.  
Comfort is provided by the style of textile elements such as cushioned furniture.  
The fine, dark metal details are important for maintaining lightness.

## **Materials / shapes**

---

The style is characterized by rough materials: concrete, untreated wood dark, metal, leather and rough ceramics. Deliberately not chichi. The design language is spare, uncomplicated and absolutely functional.

---

Light wood, textiles in muted colors and delicate, golden accessories are the key players.  
The design language is stark, but not edgy and hard. The furniture seems light and graceful.
